CONDITIONS OF SALE: As no control can be exercised over the manner in which or the conditions under which this product is used, all conditions and warranties expressed or implied, other than those required by statute are excluded. No responsibility will be accepted for any damage or injury whatsoever arising from the storage, handling, application or use of this product.

DIRECTIONS FOR USE:

Use Fertigate W as a late season fertigation input where trees or vines require additional Nitrogen and Potassium as well as maintenance quantities of other Macro elements.

To dissolve, add the fertiliser to the water at a maximum concentration of 1 kg per 4 litres of water, and stir until dissolved. The use of hot water speeds up the process.

FEATURES: Fully Soluble. Chelated trace elements. No precipitation or nozzle blocking. Buffered.

DIRECT TANK FEED: For a 1000ppm solution of Fertigate W, dissolve 1kg of Fertigate W and dilute to a final volume of 1000L with water.

Alternatively, dissolve a 10kg bag of Fertigate W and dilute to a final volume of 10,000L with water.

INJECTION: For an injection ratio of 100:1, initially dissolve 10kg of Fertigate W and dilute to a final volume of 100L prior to injection.

SAFETY DATA SHEET: A Safety Data Sheet should be available at all work places where Fertigate W is stored or used (available from Grochem.)

STORAGE AND TRANSPORT: The product must be segregated from combustibles and other incompatible substances. This includes explosive, flammable, toxic, infectious and corrosive (Class 1, 2, 3, 4, 6 and 8). Store in a cool dry place. Do not carry on a passenger service vehicle.

DISPOSAL: This product should be disposed of by use in the manner described on the label, or by depositing it in an approved landfill.

Segregation from products of Class 1, 2, 3 and 4 must be maintained after disposal unless the properties of the product have been altered to remove the hazardous properties. Dispose of empty packaging by burying in an appropriate landfill. DO NOT burn.

PROPER SHIPPING NAME: OXIDISING SOLID, NOS. UN NO. 1479

Approved Pursuant to the HSNO Act 1996, under the Fertilisers (Oxidisers [5.1.1]) group standard. No HSR002570. See www.epa.govt.nz for approval conditions.
